

REL-WSE Commercial Grade Epoxy Wire Shelving

Easy to assemble — no tools required

Designed for walk-in coolers and freezers, epoxy coated wire shelving units are a simple, stylish and durable storage system that offer a contemporary open wire design for ventilation and minimal dust collection. Choose between one, two, three and four shelf units to add style and organization to your storage space.

- Durable epoxy coated finish
- Rust inhibiting undercoat applied
- Suitable for wet and dry applications
- 1" increments on posts for easy adjustments
- Capacity 400 – 600 lbs. per shelf (depending on length)
- Meets commercial food service weight capacity standards
- Optional 5" swivel casters with brakes fit on legs
- Single shelves available in a variety of lengths and widths
- Variety of lengths and widths available
- Easy to assemble — no tools required
